# Streamlined eBoarding Portal

Complete your entire onboarding process from one page. CEIPAL's new eBoarding portal allows recruiters to onboard candidates from one centralized location within the platform. Plus, the portal integrates with productivity apps, like background check services, creating a streamlined hub for workflow.
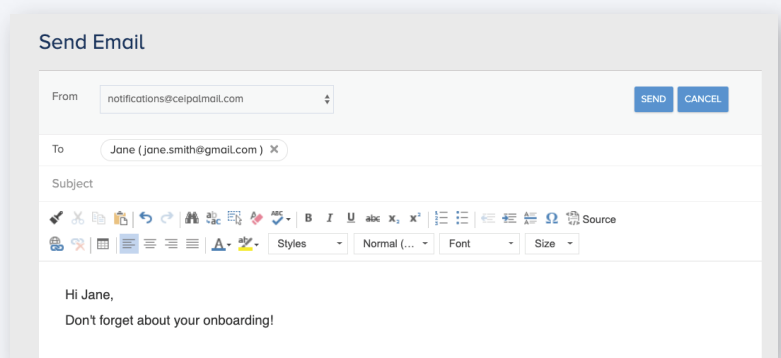

How does it work?

Specify what documents your candidate needs to complete with highly customizable checklists.

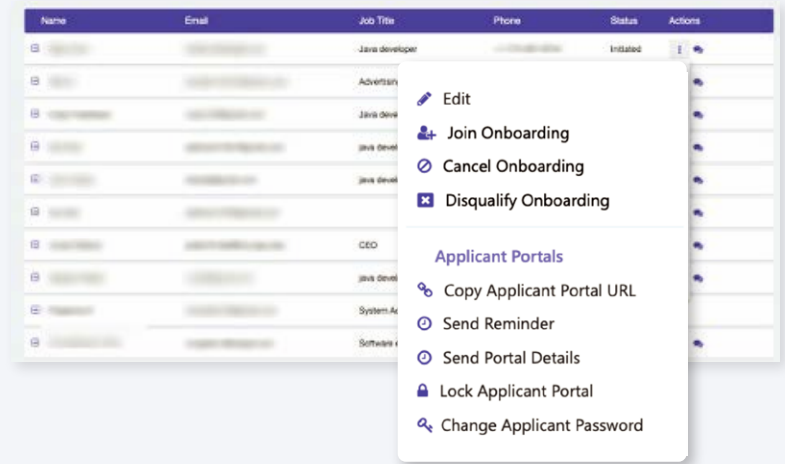

Control when your candidate sees different requirements making sure one phase of onboarding is complete before another begins.

Send automatic emails and reminders to candidates throughout the process.

Track the status of all your candidates onboarding from our comprehensive dashboard.
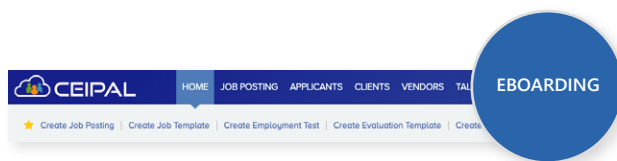

Use software that fits into your workflow with our countless integrations with other onboarding services.

How do I set it up?

1 From the CEIPAL portal, select the **eBoarding** module.

3 Track all onboarding candidates throughout the process.

2 Initiate onboarding process either manually or automatically.
