

Cloud Call Integration

Enable your teams through CEIPAL's integration with the industry leading business communication platform, CloudCall. CloudCall provides outreach tools to boost productivity and streamline communications with advanced telephony, SMS, instant messaging features, and more.

How does it work?

CEIPAL's CloudCall integration allows recruiters to leverage CloudCall's leading communication platform by directly linking CloudCall to the CEIPAL CRM.

Recruiters can take advantage of CloudCall's capabilities, which include:

Click-to-Call

Making calls in a single click

Power dialer

Uploading prepared contact lists and moving through the list automatically

Voicemail drop

Leaving pre-recorded voicemails for clients and candidates with one click

Seamless data capturing

With integrated notes and automatic call recordings

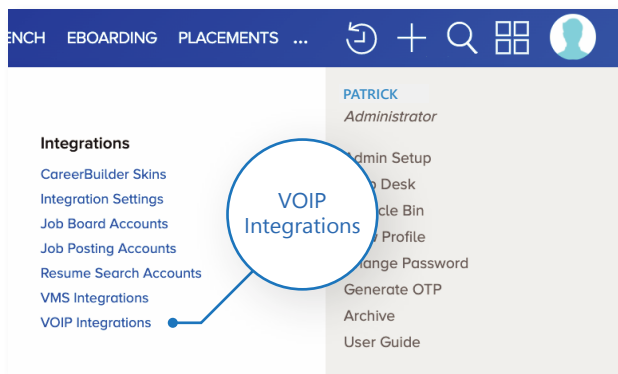

How do I set it up?

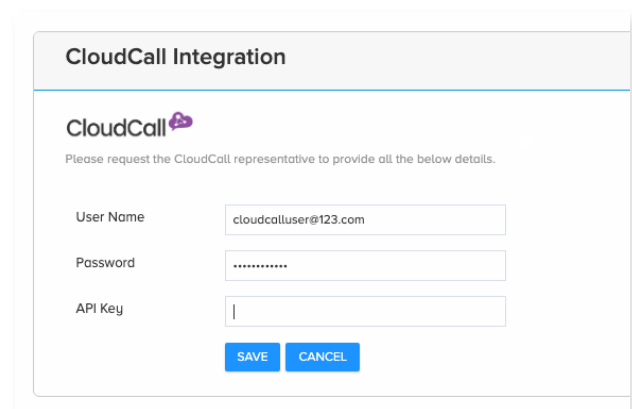

All CEIPAL cusotmers receive a **30% discount** on CloudCall's professional package!
