New Feature Hotspot

Business Intelligence Module

Empower your teams with information. CEIPAL's ultra-modern, user-driven Business Intelligence Module aggregates information from all corners of your ATS to deliver actionable insights through beautifully designed data visualizations.

- Choose your metrics and generate unlimited reports through our completely customizable reporting center
- Assess information on the spot with our ultra-modern, easy-to-understand interactive graphs
- Pin your favorite reports straight to your homepage to create personalized dashboards
- Watch your business grow and keep close tabs on progress as every dashboard updates in real time

Product Updates

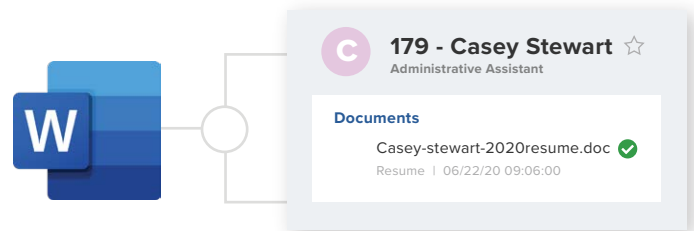

Global Search

All the data from your ATS, at your fingertips. CEIPAL's new Global Search allows recruiters to search across their entire database instantaneously by indexing information from all modules—so you can find exactly what you're looking for.

Microsoft Word Plug-In

Never copy and paste from Microsoft Word again. With CEIPAL, recruiters can now parse resumes within Word and automatically transfer the data into their ATS.

End-to-End I-9 Management

Manage the entire I-9 process from within your CEIPAL. Back office employees can now initiate, monitor, and complete the I-9 process in a few simple steps, all directly from WorkForce.

Integration Spotlight

Have better conversations with the industry's leading business communication platform. Plus, CEIPAL users receive a 30% discount!
