

# **CEIPAL Business Units**

#### **Organize Multiple Business Units** within One Enterprise Account

CEIPAL's Business Units help you organize & access data across business units. With CEIPAL's Business Units, you can organize the job postings, clients, vendors & CRM modules into individual business units. The applicants & talent bench modules remains open at an enterprise level, so your teams have complete access to all available talent across business units.

#### **Easily Manage & Access Insights** Across Multiple Businesses

Maybe you own multiple staffing companies. Or, you oversee multiple businesses within one enterprise. CEIPAL's Business Units help you manage these separate organizations & teams from one location. You can assign team members to multiple business units, and these team members can view, manage, and create business reports at an enterprise level.

### **CEIPAL Business Units Benefits**

- + Assign teams to specific business units
- + Assign targets to each business unit

- Track progress & ROI per business unit

+ Customize configurations & manage communications per unit

+ Generate reports per business unit or at enterprise level

+ Filter job requirements, clients, and vendors by unit
